Att: Harry S. Gropp

PLAINTIFF'S EXHIBIT PX-490

Project: CAFCO Material for World Trade Center - Curtain Wall-
North and South Towers - Contract WTC 400.00

Gentlemen:

We have reached the following understanding concerning your sale to us of CAFCO materials for the above mentioned project.

United States Mineral Products Company will design, purchase and install the necessary manufacturing equipment at its plant and arrange firm supply contracts for adequate amounts of raw materials used by it in the manufacture of products hereinafter mentioned, to enable it to supply the estimated quantities amounting in all to approximately 6000 tons for the sprayed fiber fireproofing, thermal and acoustical insulation work to be done under this contract. Further, United States Mineral Products Company shall manufacture and load for shipment the quantities of CAFCO BLAZE SHIELD Type D required, up to 45 tons per day on two (2) weeks notice. If, for part of the work, CAFCO BLAZE-SHIELD Type H or CAFCO HEAT-SHIELD are required, United States Mineral Products Company shall manufacture and load the same for shipment in the quantities required on two (2) weeks notice.

Mario & Di Bono Plastering Co. Inc.

370 NORTHERN BLVD., GREAT NECK, N.Y. 11021 TELEPHONE: 516-HN 6-0100

The prices of said materials, effective for the life of this contract or April 15, 1971, whichever first occurs, all F.O.B. Stanhope, New Jersey are as follows:

For CAFCO BLAZE-SHIELD Type D	$ 145.00 per ton
For CAFCO BLAZE-SHIELD Type H	$ 170.00 per ton
For CAFCO HEAT-SHIELD	$ 170.00 per ton

Terms of payment are net 60 days.

Mario & Di Bono Plastering Company, Inc. agree to purchase from United States Mineral Products Company all sprayed fiber fireproofing, thermal and acoustical insulation materials required to be used for this project and to pay for same at the prices and in accordance with the terms herein set forth.

Mario & Di Bono Plastering Company, Inc. shall make all arrangements for: scheduling and notice to United States Mineral Products Company of material requirements at least two (2) weeks in advance; sufficient empty trailers at United States Mineral Products Company plant in Stanhope, New Jersey for loading at least twenty-four (24) hours before shipment is scheduled; and for delivery, unloading and storage of materials at the job site.
